

Capilex®

Compliance Made Easy™

A Revolutionary New Easy Chew Designed to Control Feline Hairball Vomiting

Effective - **Capilex®** significantly reduces hairball related vomiting. Independent efficacy studies document an **82% reduction in vomiting**. Veterinarian recommended.

Great Tasting - most cats willingly accept our flavored easy chews as a treat. Independent palatability studies document an **88% acceptance rate**.

Convenient - IntegriDose® packaging assures dosing accuracy and consistency, making it simple and easy for the cat owner.

Extraordinary - unlike petroleum jelly-based treatments, **Capilex** breaks down intestinal hair buildup, allowing for safe and natural elimination.

Capilex works to break down existing hairballs and minimize new hairball formation, allowing ingested hair to pass naturally. Routine administration of **Capilex** results in a rapid and sustained reduction of hairball related vomiting.

***Cats love the taste...
Owners love its effectiveness.***

Capilex[®]

Compliance Made Easy[™]

Feline Hairball Control

Capilex[®] Palatability Study 88% Acceptance

Independent studies* demonstrate that **Capilex[®]** is highly palatable, with 88% of cats readily accepting and ingesting it. Of those cats that initially accepted **Capilex**, 94% continued to accept it throughout the course of the study.

Capilex[®] Feline Hairball Emesis Study 82% Overall Reduction in Hairballs Vomited

Independent studies* to measure product efficacy demonstrate that **Capilex** reduces the number of hairballs vomited by 82%.

*Studies conducted at Summit Ridge Farms, Susquehanna, PA.

Capilex removes fats and proteins that become trapped in the mass of tangled hair ingested by cats during their normal grooming regimen. In vitro dissolution studies, using hairballs in a **Capilex** solution, demonstrate an 83% reduction in hairball weight and size, as shown in the photo above.
